# Chairman's Report - Sandy Osterday

*"212° ~ the extra degree: At 211 degrees, water is hot. At 212 degrees, it boils. And with boiling water, comes steam. And with steam, you can power a train. One extra degree makes all the difference."*

When I found this saying, I thought this can be applied to so many aspects of our lives, if we are willing to give "one extra degree" to everything we do, just think of the things we can accomplish.

Each year I see our FFA members giving the extra degree to earn a proficiency award, win a CDE, earn a scholarship, help their community and school, or apply for an office at the chapter, district or state level. When they give that extra degree they know win or lose they gave it their all.

At the South Dakota FFA Foundation our goal is to provide FFA members with the opportunities, activities and events to learn, grow and accomplish many great things.

Of course it takes money and hours of work from the many people involved in the FFA program to fulfill our goal. As you page through this annual report you will see the various ways used this year to once again increase the amount of donations. From the individual to the corporation; your continued support of the FFA organization is greatly appreciated. On behalf of the South Dakota FFA Foundation I send huge thank you for making the difference.

Sincerely,  
Sandy Osterday  
SD FFA Foundation Board President
